Actions Arising

- Share first draft of priority-setting exercise for 2021 Census custom tables with Leads and the Data Purchase and Access Working Group. Solicit endorsements and requests for tables
- Update members on upcoming Tableau Dashboards: Liquid Assets, Community Health, IMDB Immigrant Retention
- Confirm that we will identify options for a better PCCF – elevating the urgency within STC as part of our regular high-level meetings AND approaching a private vendor to consider licensing options
- Provide written update on plans for Ver 3.0 of the Community Recovery Dashboard (to be delivered in advance of our next Annual meeting)
- Check CMHC vacancy data available for CDs within Columbia Basin Boundary
- Verify data quality associated with CD-level data provided by CMHC
- Provide written update on status of remaining 2016 custom geo tables being produced by STC
- Send out a follow-up email to all leads re: Request for Submission of custom geo boundary files and associated metadata
- Create Leads discussion email list
- Follow-up with Ottawa, Peel and Calgary re: interest in creating local versions of a National Equity Atlas and confirming a role for CDP/CCEDNet
- Confirm with Chenlu the possibility of Govt of Nova Scotia hosting our May 2022 Annual Meeting

- Distribute Strategic Plan survey to all registered users
- Share a link to all leads for accessing todays slide deck and notes of the meeting
