

# Community Data Program

Enabling communities across Canada to measure and track local well-being

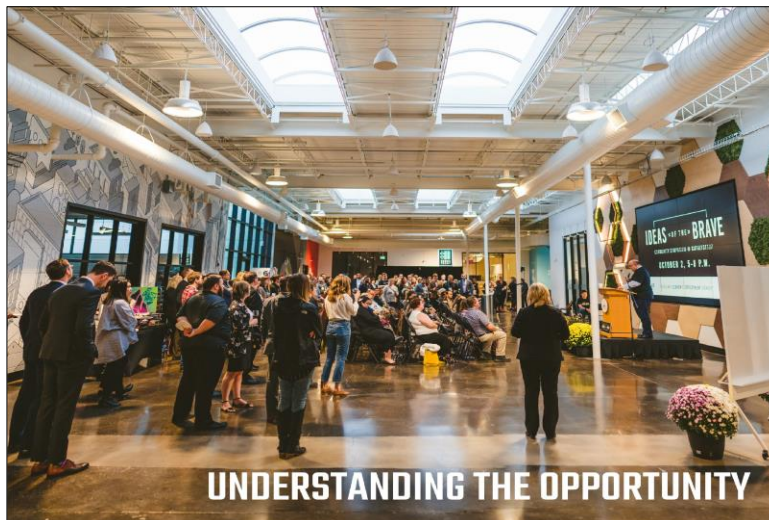

## Community Snapshot

The Kitchener Economic Development Strategy (2019-2022)  
Make It Kitchener 2.0

## Summary

The city of Kitchener used the community data and the result of discussions among the city's community, business and institutional leaders and residents to provide crucial information for the next Economic Development Strategy.

## Practitioner

Lauren Chlumsky is the Economic Development Analyst at the City of Kitchener. As a CDP member, she used community data to develop the Kitchener Economic Development strategy.

## Community data used

- Labour Force Survey, Statistics Canada
- Census of Population, Statistics Canada

The Community Data Program is an initiative of the Canadian Community Economic Development Network
